The Appeal Brief filed on 12 December 2006 is defective for failure to comply with one or more provisions of 37 CFR 41.37.

To avoid dismissal of the appeal, applicant must file an amended brief or other appropriate correction (see MPEP 1205.03) within **ONE MONTH or THIRTY DAYS** from the mailing date of this Notification, whichever is longer.

EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136.

3. ☐ At least one amendment has been filed subsequent to the final rejection, and the brief does not contain a statement of the status of each such amendment (37 CFR 41.37(c)(1)(iv)).
4. ☒ (a) The brief does not contain a concise explanation of the subject matter defined in each of the independent claims involved in the appeal, referring to the specification by page and line number and to the drawings, if any, by reference characters; and/or (b) the brief fails to: (1) identify, for each independent claim involved in the appeal and for each dependent claim argued separately, every means plus function and step plus function under 35 U.S.C. 112, sixth paragraph, and/or (2) set forth the structure, material, or acts described in the specification as corresponding to each claimed function with reference to the specification by page and line number, and to the drawings, if any, by reference characters (37 CFR 41.37(c)(1)(v)).
5. ☐ The brief does not contain a concise statement of each ground of rejection presented for review (37 CFR 41.37(c)(1)(vi)).
6. ☐ The brief does not present an argument under a separate heading for each ground of rejection on appeal (37 CFR 41.37(c)(1)(vii)).
7. ☐ The brief does not contain a correct copy of the appealed claims as an appendix thereto (37 CFR 41.37(c)(1)(viii)).
8. ☐ The brief does not contain copies of the evidence submitted under 37 CFR 1.130, 1.131, or 1.132 or of any other evidence entered by the examiner **and relied upon by appellant in the appeal**, along with a statement setting forth where in the record that evidence was entered by the examiner, as an appendix thereto (37 CFR 41.37(c)(1)(ix)).
9. ☐ The brief does not contain copies of the decisions rendered by a court or the Board in the proceeding identified in the Related Appeals and Interferences section of the brief as an appendix thereto (37 CFR 41.37(c)(1)(x)).
10. ☒ Other (including any explanation in support of the above items):

see the attachment.

***NOTIFICATION OF NON-COMPLIANCE WITH THE REQUIREMENTS
OF 37 § CFR 41.37***

1. Upon review of the IFW, it is noted that "*Summary of claimed subject matter*" appearing in the Appeal Brief filed 12/12/06 is deficient.

2. 37 CFR § 41.37(c) (1) (v) reads as follows:

(c) (1) The brief shall contain the following items under appropriate headings and in the order indicated in paragraphs (c)(1)(i) through (c)(1)(x) of this section, except that a brief filed by an appellant who is not represented by a registered practitioner need only substantially comply with paragraphs (c)(1)(i) through (c)(1)(iv) and (c)(1)(vii) through (c)(1)(x) of this section:

....

(v) *Summary of claimed subject matter.* A concise explanation of the subject matter defined in each of the independent claims involved in the appeal, which shall refer to the specification by page and line number, and to the drawing, if any, by reference characters. For each independent claim involved in the appeal and for each dependent claim argued separately under the provisions of paragraph (c)(1)(vii) of this section, every means plus function and step plus function as permitted by 35 U.S.C. 112, sixth paragraph, must be identified and the structure, material, or acts described in the specification as corresponding to each claimed function must be set forth with reference

Art Unit: 2194

to the specification by page and line number, and to the drawing, if any, by reference characters.

The “*Summary of claimed subject matter*” appearing the Appeal Brief filed 12/12/06 is deficient because it fails to provide a proper mapping the claimed invention to the claims.

For Example, Appellant maps the claim limitation “sends an object of a class to a remote location together with a handle corresponding to a descriptor of the class, and with an outgoing serialization context that stores the descriptor of the class and the handle corresponding to the descriptor” to Specification, p. 9, ll.7-19; Fig. 1, element 126; Fig. 2, element 202.

The above cited portions, however, fail to suggest the claimed “sends an object of a class to a remote location together with **a handle** corresponding to a descriptor of the class, and with an outgoing serialization context that stores the descriptor of the class and **the handle** corresponding to the descriptor”.

Appellant is advised to review the “*Summary of claimed subject matter*” and provide a proper mapping for the subject matter defined in each of the independent claims involved in the appeal.

3. A substitute brief that is in compliance with 37 CFR § 41.37(c) is required. To avoid dismissal of the appeal, Appellant must comply with the provisions of 37 CFR 41.37(c) within ONE MONTH or THIRTY DAYS, whichever is longer, from the mailing of this communication. Extensions of time may be granted under 37 CFR 1.136.
